

Editorial

"Even if Mona Lisa is using face mask, during these COVID days, we must pay more attention to isolation and social distance. "Stay at Home!" is an excellent policy for isolation that everybody must obey, but it is not always and every day possible in this complicated global world.

This issue of JGSS aims to find out solutions to following and similar domestic and international problems. International organizations, paradox of public service reforms in Nigeria, N-Power Scheme, divided cities, validity of previous shari'ahs in Islamic Law, pen and paper examination, environmental scanning, security challenges, and peacekeeping in Africa, investment in family planning, and solid waste management system.

Hope to see you in the next issue without any need for "Stay at Home" warnings.

Kemal Ozden, Prof.Dr.
